## Issues that are IMPORTANT to YOUTH... **Same-sex Marriage**

### LIBERAL

The Young Liberals of Canada began the fight for same sex marriage in 1994 and successfully lobbied the Liberal Party of Canada to officially adopt an equal marriage resolution in the official Party platform.

On June 28, 2005, the Liberal Canadian Government passed Bill C-38, *The Civil Marriage Act*, allowing same sex couples to marry in Canada.

Canadian's who wish to marry will no longer be discriminated because of their sexuality.

### Conservative

In 2006, Stephen Harper made an election promise to turn back the hands of Canada's parliamentary system by holding a free vote to restore the traditional definition of marriage.

Members of the Conservative Caucus have admitted that they believe legalization of same-sex marriage was a mistake.

Stephen Harper will ask his government to vote on removing rights from Canadians.  
"I believe that a law should protect the traditional definition of marriage"

— Prime Minister Stephen Harper
